

PASSING BASICS

The inside-of-foot pass

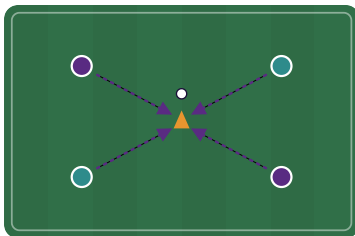

SESSION PLAN

WARM-UP · OPTIONAL Partner relay 10 min

Pair up. Partners run down and back together, then tag the next pair. In round two they pass a ball back and forth between them the whole way. Keep pairs close so the passes stay short and easy.

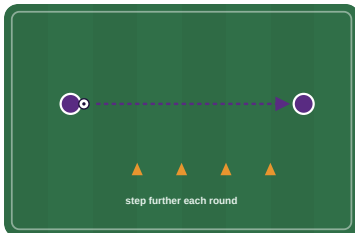

SAY IT SIMPLY "Stay with your partner!" · "Pass and go!" · "Short and easy!"

PLAY Knock the Cone 15 min

Play this first, no coaching yet. Stand a target cone (or balance a ball on top of a cone) in the middle of the grid. Two teams spread around the outside and pass to try to knock the target over, resetting it after each hit. Keep score.

SAY IT SIMPLY "Look up first!" · "Pass it firm!" · "Talk to your team!"

PRACTICE Passing at increasing distance 15 min

Now teach it: this fixes what just came up in Play. Pairs pass and receive, stepping a yard further apart each round. Staff shows the technique: a firm ankle, contact through the middle of the ball, and enough weight that a partner can control it.

SAY IT SIMPLY "Plant your foot!" · "Use the inside!" · "Right to your friend!"

PLAY Small-sided play 15 to 20 min

Bring the game back so it gets used. Even teams, 3v3 or 4v4 to small goals. Light coaching, let them play.

SAY IT SIMPLY "Find a teammate!"

WHY IT MATTERS

Passing is the first team skill players learn. It's the start of playing with teammates instead of alone. The inside-of-foot technique here is the pass they'll use most at every level.

HOW IT DEVELOPS

- | | |
|------------------|--|
| U7 to U8 | Pass on the move and with both feet over slightly longer range, and combine a pass with a run to receive it back. |
| U8 to U10 | Weighted, accurate passing to keep possession and build out of the back. Played into space and to a moving teammate. |
